A highly A detail-oriented Laravel developer with a strong foundation in web development and system design, recently graduated with a degree in Software Engineering from Telkom University. Passionate about building scalable, efficient, and user-friendly applications, I have hands-on experience developing inventory and point-of-sale systems using modern PHP frameworks. Known for writing clean, maintainable code and collaborating effectively in team-based environments, I strive to create impactful solutions that address real-world business needs—especially in the domain of digital operations and automation.

EXPERIENCE

Fullstack Developer Intern & IT Support <b>PT PLN NUSANTARA POWER UP</b>	February - April 2025 <b>Medan, Indonesia</b>
<ul style="list-style-type: none"><li>Built and maintained internal web-based systems using Laravel and MySQL to improve inventory and operational workflows</li><li>Collaborated with various departments to troubleshoot and resolve technical issues as part of the IT support role</li><li>Provided technical documentation and assisted in training sessions for non-technical staff, improving digital literacy across teams</li></ul>	

PROJECTS

Fullstack Developer <b>Management Inventory</b>	January 2025 - Present <b>Medan, Indonesia</b>
<ul style="list-style-type: none"><li>Designed and developed a web-based inventory management system using Laravel and Filament, implementing real-time stock tracking, transaction logging, and automated sales reporting to streamline business operations.</li><li>Led the full software development lifecycle using the Rapid Application Development (RAD) methodology, from requirement gathering and prototyping to deployment and user training.</li><li>Integrated export-to-PDF and filtering features for reports, enabling business owners to make data-driven decisions while reducing manual record-keeping time by over 60%.</li><li>Collaborated with cross-functional teams to conduct black-box and user acceptance testing (UAT), ensuring the system met functional requirements and achieved high user satisfaction.</li></ul>	

ACHIEVEMENTS

Website Development with HTML <b>CodePolitan Online Learning Platform</b>	December 2024
<ul style="list-style-type: none"><li>Completed a comprehensive online course on building responsive websites using HTML, covering web structure, semantic markup, and basic styling techniques.</li><li>Developed several static web pages as part of the course projects, applying best practices in code formatting, accessibility, and browser compatibility.</li><li>Gained foundational skills in front-end web development, serving as a stepping stone to mastering CSS, JavaScript, and modern frameworks.</li></ul>	
Website Development with CSS <b>CodePolitan Online Learning Platform</b>	December 2023
<ul style="list-style-type: none"><li>Completed an intensive online course on website development using HTML and CSS, mastering concepts such as responsive design, layout structuring, typography, and color theory.</li><li>Built multiple web page projects from scratch, applying modern CSS techniques including Flexbox, Grid, and animations to create visually appealing and user-friendly designs.</li><li>Demonstrated ability to translate design mockups into fully functional and responsive web pages, showcasing attention to detail and adherence to web standards.</li></ul>	
JavaScript Web Development Bootcamp <b>CodePolitan Online Learning Platform</b>	March 2023
<ul style="list-style-type: none"><li>Completed an intensive web development bootcamp focused on mastering JavaScript for building interactive and responsive websites.</li><li>Developed multiple web projects, implementing DOM manipulation, API integration, and event-driven programming to enhance user experience.</li><li>Gained hands-on experience in structuring clean, maintainable code and applying best practices in front-end development, preparing for real-world software engineering challenges.</li></ul>	

EDUCATION

Bachelor's Degree, Software Engineering Telkom University Purwokerto	August 2021 - Present Purwokerto, Indonesia
Learner, CodePolitan CodePolitan Online Learning	Desember 2024 - Present Medan, Indonesia

SKILLS

**Core Skills:** Web Development, Backend Development, Frontend Development, RESTful API, Database Design, Authentication & Authorization, Real-Time Data Processing, Report Generation, Agile Scrum, Version Control, Software Architecture  
**Tools:** Laravel, Filament, React, Vite, Tailwind CSS, Git, GitHub, Postman, MySQL, phpMyAdmin, Visual Studio Code, Figma  
**Languages & Frameworks:** PHP, Laravel, JavaScript, React.js, Livewire, Tailwind CSS, HTML5, CSS3, MySQL, Axios, Chart.js, Alpine.js
